21 November 2014

## 1 PAPER OVERVIEW

An overview of our proposed design and deliverables for senior design will be covered below. Our overarching design will be broken down into three core subsections: (1) the CAN protocol and subsequent network hardening, (2) DSRC communication with high speed encryption, and (3) the robotics testbed.

### 1.1 CAN DESIGN

### 1.2 HIGH SPEED ENCRYPTION

### 1.3 ROBOTICS TESTBED
