Senior Design Design Review
Team 25 - Security in Autonomous Vehicles

Kevin Gilbert, Gilberto Rodriguez, Christopher Haster, Hao Chen, Young Chou, Joshua Bryant

21 November 2014

1 PAPER OVERVIEW

An overview of our proposed design and deliverables for senior design will be covered below. Our overarching design will be broken down into three core subsections: (1) the CAN protocol and subsequent network hardening, (2) DSRC communication with high speed encryption, and (3) the robotics testbed.

1.1 CAN DESIGN

blah blah blah CAN

1.2 HIGH SPEED ENCRYPTION

blah blah blah encryption

1.3 ROBOTICS TESTBED

mother fucking robots
